PROJECT DURATION
November 2021 - October 2024

PROJECT LEADER
Prof. Dr. André Ludwig (Leipzig University)

BRIEF DESCRIPTION
Passenger transportation and freight transport are virtually always strictly separated today. But it does not have to stay that way – especially for rural areas, innovative solutions are needed. The research project CargoSurfer, funded by the Federal Ministry for Digital and Transport (BMDV), is developing an IT solution that will allow parcels to be reliably delivered in rural contexts using public transportation.

PROJECT FUNDERS
Federal Ministry for Digital and Transport (BMDV)
