KLU RESEARCH PROJECT
INNOVATIVE WATERWAY TRANSPORTATION 2.0.

PROJECT DURATION
April 2023 – June 2026

PROJECT LEADER
Prof. Dr. Gordon Wilmsmeier (Kühne Logistics University - KLU)

BRIEF DESCRIPTION
The project contributes to understanding of different aspects, e.g., drivers, challenges, gains, and business requirements and perspectives of key stakeholders in the supply chain of waterway transportation (e.g., ship operators, shippers, operators, ports) and the implications of technologies and solutions adopted by the project’s freight flow coalitions (FFC) towards achieving green inland waterway FFC solutions. Funded by the EU.

PROJECT FUNDERS
European Union (EU)

PROJECT PARTNERS
Maritieme Academie Harlingen - part of DUNAMARE onderwijsgroep, Logistics Initiative Hamburg, Kühne Logistics University (KLU)
