KLU RESEARCH PROJECT

DEVELOPMENT OF AN ASSESSMENT TOOLKIT TO DETERMINE LOGISTICS COMPETENCES, SKILLS AND TRAINING

PROJECT DURATION
September 2016 – December 2016

PROJECT LEADER
Prof. Dr. Kai Hoberg (Kühne Logistics University - KLU), Prof. Alan C. McKinnon, PhD (Kühne Logistics University - KLU), Prof. Dr. Moritz Petersen (Kühne Logistics University - KLU)

BRIEF DESCRIPTION
A recent study for the World Bank showed a shortage of people with the right skills to meet the needs of the logistics industry. A series of recommendations to governments wishing to raise the level of logistics skills in their countries was made. This research project aims to develop a toolkit that governments can use to (1) assess the availability of logistics skills, certifications and training in their countries and (2) find out how to deal with logistics skill shortages.

PROJECT FUNDERS
World Bank

PROJECT PARTNERS
Chartered Institute of Logistics and Transport, Kühne Logistics University (KLU)

CONTACT PERSON
Prof. Dr. Moritz Petersen (Kühne Logistics University - KLU) (moritz.petersen@klu.org)

SUBJECTS
Logistics, Tool Kit, Creating Value
